## Customer Focused, Quality Driven.

State Electric Supply Company was founded in 1952 by Art Weisberg in Huntington, WV. Art built his company around the idea that providing the customer with just a product was not enough. "Beyond quality products and competitive prices, the thing that would separate our company from others was service. We believe that making an extra effort to provide customers with what they need, when the need it, will keep them happy and coming back." This philosophy of quality service and products led to the slogan "Customer Focused, Quality Driven." Today, State Electric spans 6 states (WV, VA, IL, KY, OH and NC) and services an even larger region.
